Some of our pretty little girls seem quite fond of our cunning little boys on whose lips the first appearance of what will in the course of time be a mustache, and they are really imperilling the lives of these youths in keeping them out so late evenings. Girls, remember that little boys should always be in bed early.

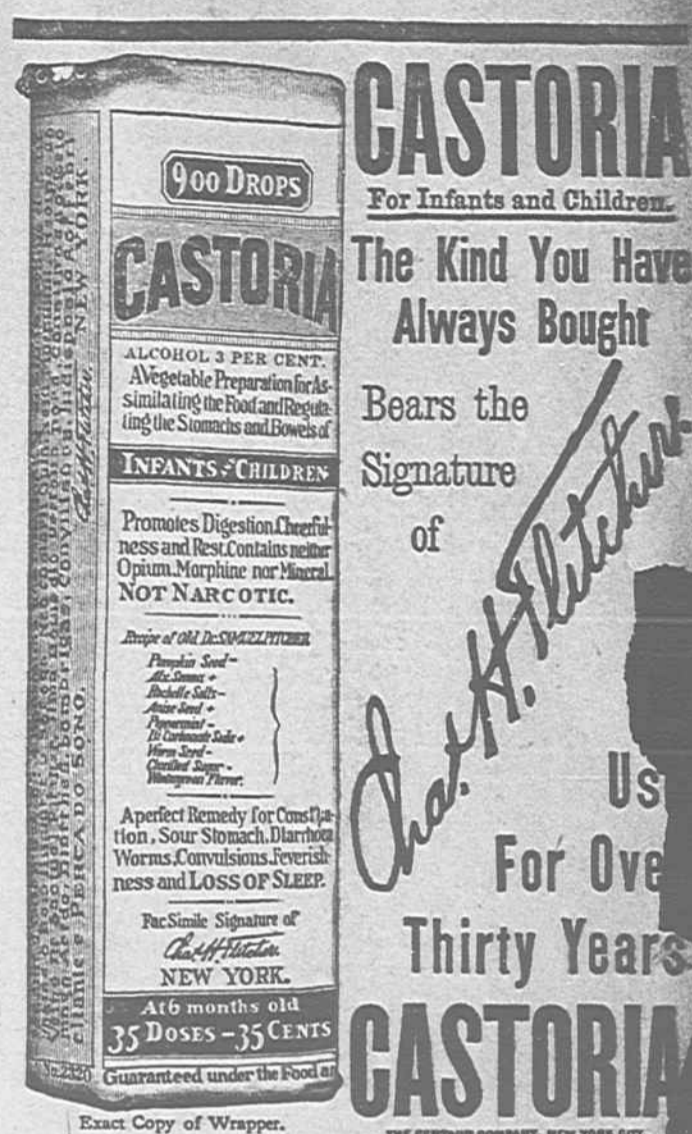

Question—Why is it not necessary for the members of our police force to be vaccinated.

Answer—Because it is impossible for them to catch anything.

COMET DISAPPEARING.

If you did not see comet "A 1910" during the past week, you have lost the chance of a lifetime. The comet has now practically disappeared as only through telescopes can it be discerned. Scientists say that within a short time the new comet will break in two as examinations of it show that the tail has become very uneven and that a large fissure is to be noted near its center.
